## ABOUT ME

Results-driven **Frontend Web Developer** and **Quality Assurance Specialist** with 3+ years of experience in creating responsive, user-friendly, and visually appealing websites. Skilled in **HTML, CSS, Bootstrap, JavaScript, jQuery, and Material UI**, with a keen eye for design trends and usability. Adept at **manual testing**, bug tracking, and ensuring software quality through structured QA processes. Proven track record of collaborating with cross-functional teams, meeting deadlines, and delivering projects that align with client and business objectives. Multilingual communicator fluent in **Urdu, English, and Punjabi**, with experience working in **UAE's multicultural environment**.

## WORK EXPERIENCE

### – Islamabad, Pakistan

**City:** Islamabad | **Country:** Pakistan

#### Quality Assurance

[ 03/07/2020 – 02/01/2021 ]

- Develop test scenarios and cases to uncover potential issues.
- Consider diverse inputs, conditions, and scenarios for comprehensive testing.
- Use unit testing, integration testing, and system testing to identify varied software problems.
- Execute tests, actively monitoring for unexpected behaviors or defects.
- Document identified bugs with detailed information.
- Prioritize and promptly communicate discovered issues to the software engineering team.
- Align testing with user requirements and expectations.
- Develop comprehensive test plans outlining strategy, objectives, and scope.
- Perform user acceptance testing (UAT) for end-user needs.
- Ensure the software functions as intended, delivering a positive user experience.
- Create detailed test cases covering various scenarios and conditions.
- Start test case development from scratch, considering all possible inputs, outputs, and system interactions.

### **Oreactives** – Islamabad, Pakistan

**City:** Islamabad | **Country:** Pakistan

#### Frontend Web Developer

[ 07/01/2021 – 15/02/2022 ]

- Design digital images for websites:
- Create visually appealing graphics and images that align with the overall website design.
- Ensure images are optimized for web performance and responsiveness.
- Collaborate with the design team to maintain a consistent visual style.
